The Evening Bulletin.

SAN FRANCISCO, CAL.

Established 1855.

IS THE LEADING Evening Journal in circulation and influence west of the Rocky Mountains.

IT IS RECOGNIZED authority in mercantile and financial circles.

ITS HIGH CHARACTER, tone and general worth commends it to, and has obtained for it, an entrance to the refined and cultured home circles, and made it the most popular family newspaper in California.

IT IS DISTINGUISHED for the brilliancy of its editorial matter, the accuracy and completeness of its local and telegraphic news, its interesting correspondence from all parts of the world, reviews of current literature, art and theatrical criticisms, the extent of its foreign news, and its freedom from highly colored sensationalism.

IT IS VALUABLE TO ADVERTISERS for the following reasons:

IT HAS A LONG-SUSTAINED CIRCULATION among a prosperous class of readers, who have learned to appreciate its special value.

EVERY PAGE contains fresh telegraphic or local news, affording every advertisement in its columns a good position.

The Weekly Bulletin

Is the largest and best weekly newspaper published in the West, and is in every respect a first-class family paper, appealing to the interest of every member of the household.

The Semi-Weekly Bulletin

Is the regular WEEKLY BULLETIN and Friday's issue of each week.

SAN FRANCISCO.

San Francisco is the commercial metropolis of California and of the Pacific coast, and is on the great highway of travel and commerce to the Orient, and thus commands a large share of American trade with China, Japan, Australia and the South seas. This trade makes it the third importing city in the United States, as well as the fourth in point of the number of letters and papers handled by the postoffice. It ranks eighth in population, ninth in manufactures and first in per capita wealth. Its population, according to the census of 1890, is 298,997, with an assessed valuation of $412,158,906, which is an increase of $40,236,474 over 1891, for real and personal property, and with deposits in the savings banks, Jan. 1, 1893, $107,224,441. The position and natural advantages of the city have given it an almost unparalleled growth during the last 30 years, and promise in the next half-century to make it second only to New York in size and commercial importance. It has the only capacious harbor between Alaska and Panama; it is on the great central line of travel across the continent; it is the terminus of 4 transcontinental railroads; it is the chief market and distributing point for Northern and Central California—the richest agricultural country west of the Mississippi; it has a climate which is cool in summer, equable in winter, and permits the laborer and artisan to work in the open air throughout the year.

San Francisco is in latitude 37 deg. 46 min. north, longitude 122 deg. 24 min. west, and lies on the eastern side of a peninsula, with the bay in front, and the Pacific ocean at is back. The peninsula is 6 miles wide, and the city is now built up closely over one-half the distance to the ocean. From north to south the city extends about 8 miles. This peninsula consisted originally of barren sand dunes, covered with a dense growth of live-oak chaparral, and intersected with numerous creeks and lagoons of the bay. This was its condition when, on Oct. 8, 1776, the Franciscan friars added it to their long chain of missions that stretched along the coast from San Diego. On the bay shore, within a mile of the entrance to the harbor, was established the Presidio or barracks of the Spanish garrison. The place had no growth until 1835, when the missions were all secularized. In that year Richardson, an Englishman, established the first trading post in the heart of the present city, and the village that grew up about his store was called Yerba Buena. It was 3 miles from the old mission of San Francisco. The conquest of the State by the Americans transformed Yerba Buena, and in 1847 its name was changed to San Francisco. The gold discovery at once lifted it into prominence, but the first few months saw it wellnigh deserted in the great rush into the mines; but by 1850 the tide set in toward this natural trading post for the state, ands its growth was phenomenal. In July, 1848, it had not over 500 people, while by the end of 1849 its population numbered 20,000.

Great difficulties were encountered by the early builders, owing to the many hills, ravines and swamps. To give place for business along the water front, a portion of the bay, about a mile square, was filled in. Since then a large part of Mission creek has been made solid ground, while at North Beach another large area has been reclaimed from the bay. Hills were leveled and ravines filled up, so that now the comparatively level portion of the city forms an area of 41 3-4 square miles. Many steep hills and rolling dunes remain and lend picturesqueness to the residence quarter.

HARTFORD FIRE INS. CO. ORGANIZED 1794. Assets, $6,576,616. BELDEN & COFRAN, Managers Pacific Dept. 313 California St., San Francisco.

The highest peak within the city limits is 938 feet in elevation: the Twin Peaks, just back of the Mission, are each 925 feet; while Lone Mountain, a famous landmark, that bears a wooden cross, is 468 feet; Russian Hill, 400; Telegraph Hill, 294, and Rincon Hill, 120. The three latter are in the thickly settled portion of the city. It is estimated that 25,000,000 cubic yards of earth and sand have been removed in grading, and in many parts of the city this work cost more than the value of the property. The city is laid out in rectangular blocks, with streets at right angles, except Market street, the great central highway, which cuts through the heart of the city from southwest to northeast, a distance of about 10 miles. It is 100 feet wide, and is the Broadway of San Francisco, lined with many costly buildings. At its foot is the terminus of all the transcontinental railroads, the Oakland ferries and of the cable and horse railroads.

Semi-tropical plants which thrive only in hothouses in the east, here grow and bloom in the open air. The 1,200 miles of streets are well paved, mainly with basalt blocks and wooden planks. Many superb residences have been built by railroad and mining millionaires. The crest of California street, known as "Knob Hill, boasts of a score of costly residences, including those of Senator Stanford, which cost $3,000,000; Mrs. Hopkins, $1,500,000; James L. Flood, the Bonanza millionaire, $3,000,000; Charles Crocker, one of the founders of the Central Pacific Railroad, $1,500,000. In other parts of the city are many residences that cost over $500,000.

There has been a great change in the architecture of business buildings within the last fifteen years. Among the notable buildings of the city are the City Hall, which has already cost $4,000,000, and will require $2,500,000 to finish it; the U. S. Mint, built of California granite and Newcastle Island freestone; the Palace Hotel; the Chronicle Building, 9 stories high, costing $1,000,000; Stock Exchange, Safe Deposit Building, Bank of California, Baldwin Hotel, Phelan Block, Odd Fellows' Hall, The Bancroft Building, Lachman's Building, the Synagogue Emanuel, St. Ignatius' Church, the Walkerly Building, the Starr King Building, Crocker Building, Mills Building, New York Mutual Life Building, Pacific Mutual Life Building, Flood Building, Donohue Building, Hibernia Bank Building, Germania Bank Building, costing from $200,000 to $1,500,000 each.

CITY ADMINISTRATION.

The city government consists of a mayor and a board of 12 supervisors, with city clerk, auditor, tax collector, sheriff and treasurer. Twelve judges preside over as many departments of the Superior Court, while there are police courts and justices' courts. The United States Supreme, Circuit and District Courts also hold sessions here. The police force numbered June 30, 1892, 456 men, who made 28,417 arrests for the fiscal year. The fire department employs 385 men, 21 engines, 3 chemical engines, 7 hose carts and 5 hook and ladder companies; property lost by fire during last fiscal year amounted to $1,129,271.05; insurance paid, $718,791.28. The city is supplied with water by the Spring Valley Water Company, which cost over $20,000,000; it brings most of its water from San Mateo county, 23 miles distant, in large pipes; daily consumption amounts to 18,000,000 gallons; capacity is 25,000,000 gallons; the company is building one of the largest storage dams in the world, 140 feet high, with a capacity of 40,000,000,000 gallons. Gas is furnished by two companies, whose works cost $8,000,000; daily capacity is 9,000,000 cubic feet.

FINANCES.

San Francisco's assessment roll for 1892 was as follows: Real estate, $277,118,490; personal property, $74,452,347. The estimated value of all real estate and investments is $450,000,000. The rate of taxation was $1.43 4-10 for $100. Revenue for fiscal year ending June, 1892, was $7,140,209.37; net funded debt, $502,978. San Francisco savings banks have a paid-up capital of $4,383,333, with deposits of $107,224,441, an increase of $9,624,717 over previous year. Commercial banks have a paid-up capital January 1, 1893, of $27,934,859. The bank clearings for 1892 were $815,368,724.

COMMERCE.

The merchandise exports by sea for 1892 were $40,246,608; exports by rail, $109,753,392; total merchandise exports

for the year, $150,000,000. Of the exports by sea the following were the chief articles, with comparisons with 1890 and 1891:

Articles	1890.	1891.	1892.
Wheat	$17,277,604	$27,323,251	$14,254,905
Flour	4,835,539	5,781,590	4,680,704
Wine	.....	2,160,516	2,031,405
Brandy ...	.....	395,396	495,363
Salmon ...	2,229,313	2,091,292	3,490,877

The treasure exports for 1892 were $19,850,382, against $12,722,454 in 1891. The imports were $8,993,386, against $13,006,903 in 1891. The receipts of treasure by Wells, Fargo & Co. for 1892 were, from California and Nevada, $17,-012,358; from Idaho, $,6,761,235; from Montana, $30,911,673; from Utah, $12,-547,336; from Colorado, $29,200,989; other states and territories, $15,098,109; total, $111,531,700. Duties collected on foreign imports in 1892 were $7,822,045, as against $7,627,204 in 1887. Internal revenue receipts were $1,818,351.43 for 1892, as against $1,675,845.67 in 1887.

The merchandise imports by sea in 1892 were $45,607,950, as against $41,-606,633 in 1887. Staple groceries imported in 1892 were raw sugar, 272,120,097 lbs.; coffee, 22,444,437 lbs.; rice, 48,308,-287 lbs.; tea, 6,082,033 lbs; exports of refined sugar, 138,433,783 lbs.

The whaling fleet numbered in 1892 40 vessels, but the total catch was only 13,089 bbls. and 389,400 lbs bone; ivory, 15,800 lbs. Total value, $1,250,000.

Regular lines of steamers ply between San Francisco and Yokohoma, Hong-Kong, Honolulu and all Australian, Mexican and Central American ports. Of coast steamers there are a large number, one line running as far north as Alaska.

MANUFACTURES.

In the sketch of California will be found a full list of the chief manufactures of San Francisco, with the number of the men employed and capital invested. It will suffice to say that the annual product last year was $82,731,000. The largest manufactures are those of boots and shoes, $3,000,000; breweries, $3,600,-000; cigars, $2,850,000; clothing, $5,500,-000; flour, $2,400,000; fruit canning,, $2,-600,000; provisions, $1,000,000; sash,doors and blinds, $1,000,000;sugar, $12,000,000; woolens, $260,000. There has been a great advance within the last few years in iron ship-building—one of the most extensive plants for ship-building in the country, with a stone dry dock admitting vessels of 6,000 tons. Here has been built the new government cruisers Charleston and San Francisco, and battle ship Monterey. Most of the steel for these vessels was made here.

PARKS AND PLEASURE RESORTS.

There are 8 public parks in San Francisco, but the only one of any size is Golden Gate Park, with an area of 1,013 acres, a half mile wide and stretching 3 miles away until it reaches the ocean. About $1,600,000 has been spent in improvements, and the park to-day is one of the most attractive in the country. Among its features are a large conservatory of rare plants, a children's playground, given by the late ex-Senator Sharon, and a speed-track. The drive to the ocean beach through the park affords many fine views. Among notable statues in the park are those of Garfield, Halleck and Francis Scott Key. Next to the park as an attractive resort is the Presidio Military Reservation, with an area of 1,500 acres. It fronts on the Golden Gate and has an ocean bay shore of nearly 4 miles. Here are the officers' quarters and barracks of the United States troops stationed at this place. The fine roads, ornamental trees and plants and superb views of bay, ocean and surrounding hills and mountains make the Presidio even more picturesque than the park. Another pleasure resort is Sutro Park, overlooking the Cliff House and the ocean, which has a fine conservatory and a large number of ornamental trees and plants. The cemeteries, which lie about half way between the heart of the city and the Pacific, may fairly be classed among the parks, as they abound in flowering shrubs and plants and command magnificent prospects.

One of the famous suburban resorts is the Cliff House, built on a high bluff overlooking the ocean and the Golden Gate. About 200 yards distant are several rocky islands, the favorite resort of a large number of sea lions.

MOSAIC MARBLE WORKS VENETIAN MOSAIC PAVEMENTS A SPECIALTY
Factory and Office, 1219 MARKET STREET San Francisco.
(Patented in 1887.) Telephone No. 3462

San Francisco has been pronounced by travelers the most cosmopolitan city in this country. It has quarters devoted almost exclusively to German, French, Mexican, Portuguese, Italian and Chinese residents. The favorite residence place of foreigners is North Beach; around the slopes of Telegraph Hill it is rare that one hears English spoken, whole streets being occupied by Mexicans, Italians or Portuguese. The Chinese quarter is a reproduction of a section of Shanghai or Canton. It is 4 city blocks in length and from 2 to 3 blocks in breadth. The ordinary blocks are cut into many subdivisions by narrow alleys, and the place swarms with human life, no less than 20,000 Chinese being gathered here. They are very gregarious. Cellars and sub-cellars are utilized, while every inch of space is economized. Partitions, flying galleries and box-like rooms give quarters for hundreds in an ordinary building, while in some of the great lodging houses as many as 1,000 are packed away. The stores, temples and theaters are fitted up in the native style, and are gorgeous in barbaric red, yellow and gold.

PUBLIC SCHOOLS.

The public school system of San Francisco is one of the best in the country, the appropriations having always been extremely liberal. The number of children of school age in the city June 30, 1892, was 63,933, an increase of 1,477 over 1891, and the daily average attendance in all the public schools was 32,434. The receipts of the school department for the fiscal year 1892 were $1,243,343.38. The estimated value of public school property in the city was $4,932,754. The number of teachers was 897. There are over 100 private schools and colleges in the city, attended by 8,253 pupils. There are also a number of professional schools in theology, medicine and law, and one art school. Of the libraries in the city, the largest is the Free Library, supported by the state, with 74,200 volumes. The Mercantile has a fine collection of 55,000 volumes, the Mechanics' 54,000, the Odd Fellows' 45,000, and the Law Library 30,000. Upward of 100 newspapers and periodicals are published in the city. The leading daily papers are the Call, Chronicle, Examiner, Bulletin, Post, Report and Demokrat.

CHURCHES AND CHARITIES.

The various Protestant denominations are represented by over 80 churches and chapels, while the Roman Catholics have 20 churches and many chapels. The Hebrews have 7 synagogues, and the Russo-Greek Church has 2 edifices. The largest church building is St Ignatius Church and College (Jesuit); the church will seat 6,000 people, and its spires are 225 feet high. The synagogue Emanu-El is also an imposing building. The asylums and benevolent associations are numerous, while there are British, German, French, Italian, Spanish, Portuguese, Scandinavian, Swiss and Sclavonian societies devoted to the aid of their respective nationalities.

PACIFIC

BUSINESS COLLEGE

320 POST STREET,

Red Men's Building, Opp. Union Square,

SAN FRANCISCO, CAL.

ESTABLISHED IN 1863.

THE FIRST COMMERCIAL SCHOOL ON THE COAST.

CONTINUES TO IMPART THOROUGH AND PRACTICAL INSTRUCTION IN

BOOKKEEPING, SHORTHAND, TYPEWRITING, TELEGRAPHY, PENMANSHIP, MODERN LANGUAGES, ENGLISH AND MATHEMATICAL BRANCHES, ETC.

By a Full Corps of Able and Experienced Teachers.

(OVER.)

PACIFIC

BUSINESS COLLEGE

320 POST STREET,

Red Men's Building, Opp. Union Square,

SAN FRANCISCO, CAL.

THE design of this School is to prepare its students for the practical duties of life. Since its organization in 1863, it has qualified a very large number of persons for a prosperous career in business pursuits. Its successful work may well entitle it to be ranked as

THE MODEL COMMERCIAL SCHOOL.

The PACIFIC BUSINESS COLLEGE has its graduates employed in the leading business houses of the entire Coast. The Institution supplies Mercantile Houses, Insurance Agencies, Banks, Railroad and Telegraph Offices, etc., with Book-keepers, Stenographers, Cashiers, Bank Tellers, Telegraph Operators, Clerks, Agents, etc., who invariably prove themselves to be fully qualified for the responsible positions which they occupy.

BRANCHES TAUGHT.

Single and Double Entry Book-keeping, as applied to all classes of business; Shorthand, Type-writing, Telegraphy, Business Penmanship, Commercial Arithmetic, Business Correspondence, Mercantile Law, Business Ethics, Science of Accounts, Actual Business Practice in all styles of Keeping Accounts, including Banking; English and Mathematical Branches, including Spelling, Reading, Penmanship, Grammar, Letter-writing, Word Analysis, Rhetoric, History, Philosophy, Arithmetic, Algebra, Geometry, Trigonometry, Surveying, Navigation, etc., and the Modern Languages.

ACTUAL BUSINESS TRAINING.

Our system of Actual Business Training, combining Theory and Practice, is at once so simple and natural that it needs only an examination of its merits to convince the most skeptical of its superiority over all other systems. No person of ordinary intelligence and application can go through such a course of training without becoming a thorough and practical accountant. Many of the most successful and influential business and professional men of the City and Coast may be numbered among our graduates.

LIFE SCHOLARSHIP, $75.

This is the only Business College in the State that issues Life Scholarships. As carried out at this Institution, they offer many advantages. A Life Scholarship entitles the holder to instruction in all the branches of the Full Business Course, as given in the "COLLEGE REVIEW," until he graduates, with the privilege of review whenever it may suit his convenience. We also issue Six Months' Scholarships for any or all the studies of the College at very reasonable rates. Students may pay by the month if they so desire.

INDIVIDUAL INSTRUCTION.

Individual instruction is given in all departments of the College. In the Business Course the class system is entirely discarded, except for lectures, general reviews, and practical exercises on the black-board. Thus each student receives all the advantages of private instruction, and is enabled to advance as rapidly as his ability and application will permit.

THE COLLEGE HALLS.

In all respects we have the finest school-rooms on this Coast. They are large, well ventilated, elegantly furnished, and command a splendid view of the City and its environs. Every apartment has a sunny exposure, and is flooded with light and with fresh, pure air. The ceilings are sixteen and a half feet in height; and the several rooms have thirty large windows, furnished with inside blinds

NO VACATIONS.

We have no vacations and no term divisions. Day and Evening Sessions are held during the entire year. Day Sessions from 9 A. M. to 12 M., and from 1:30 to 4 P M.; Evening Sessions from 7 to 9 P. M. Students may commence at any time and pursue their studies without interruption.

For further information call at the College Office, 320 Post Street, or send for "THE PACIFIC BUSINESS COLLEGE REVIEW," containing full particulars in regard to College Departments, Courses of Study, Methods of Instruction, Rates of Tuition, etc. Visitors always welcome.

ST. IGNATIUS CHURCH AND COLLEGE, SAN FRANCISCO, CAL.

[See other page.]

St. Ignatius College,

Van Ness Avenue, Between Hayes and Grove.

SAN FRANCISCO, CAL.

THIS institution, conducted by the Fathers of the Society of Jesus, was opened for the reception of students on the 15th of October, 1855. On the 30th of April, 1859, it was incorporated and empowered to confer Degrees and Academical Honors in all the learned professions, and to exercise all the rights and privileges common to any other literary institution in the United States. The design of this institution is to give a thorough

English, Classical, Mathematical and Philosophical Education.

IT IS INTENDED FOR DAY SCHOLARS ONLY.

The course of Studies embraces the Doctrine and Evidences of the Catholic Religion; the Greek, Latin and English Languages, Poetry, Rhetoric, Elocution, History, Geography, Arithmetic, Book-keeping, Mathematics, Chemistry, Mental, Moral and Natural Philosophy. The study of the French, German and Spanish Languages, and Practical Telegraphy, is optional.

Besides the Classical, there is a Preparatory and Elementary Department for the younger students. Its object is to qualify the pupil for the higher studies.

This institution, provided with a full staff of Professors, presents the highest advantages for the mental and moral training of the students.

The College having been removed in January, 1880, to its new and permanent location in one of the most eligible parts of the city, extends over a whole square, bounded by Grove, Franklin and Hayes streets and Van Ness avenue, and possesses the most ample accommodations and improved conveniences for 1,200 students.

The new College Buildings are divided into three principal stories for the three separate departments: the Preparatory, the Literary and Commercial, and the Philosophical and Scientific.

Besides the required Reception Rooms and Offices, large and lofty halls and stairways, several Library Rooms and Debating Halls, distinct play-grounds with covered walks and porticos for the larger and smaller students, the buildings contain a full complement of very capacious school-rooms, well lighted and ventilated, and furnished with the most approved modern conveniences. They possess also a large and well-appointed Chapel for Religious Exercises, and a College Hall, 100x145 feet internal dimensions, with spacious platform and stage suitably furnished and arranged for Scholastic Exhibitions, Dramatic Representations, Lectures and other public exercises.

The Scientific Department contains lecture rooms for Physics and Chemistry, a Chemical Laboratory and an extensive Cabinet of Physics, rooms for qualitative and quantitative analysis, engine rooms with magneto-electric machines, battery rooms, complete telegraphic stations, rooms for preparations, balances, spectroscopic studies and other scientific experiments and investigations, Museum of Mineralogy, Geology, and choice collections of natural objects and curiosities of different kinds, and it is furnished with a very large and choice collection of Philosophical and Chemical Apparatus ordered from the best constructors of Europe and America and with all that is necessary for lecture demonstrations and experiments, for private study, and the most complete and delicate chemical analysis and manipulations.

By frequent additions of whatever can be supplied by the best modern inventions, both at home and abroad, this Department has attained a very high degree of completeness and efficiency well calculated to afford to advanced students a most valuable opportunity of acquiring a thorough scientific training and education.

Students are Received at Any Time During the Season From July to May.

The Institution is Open to the Public, and Visitors Are Always Welcome.

For Further Information Apply to the President,

REV. HENRY IMODA, S. J.

A 300 PER CENT INVESTMENT.

THE INVESTMENT.

The DAILY cost of the Autographic Register System for a store of average size is LESS THAN EIGHT CENTS.

THE RESULTS.

Every observing merchant will concede that the following statements are true:

First—A storekeeper's DAILY loss from forgotten charges is MORE THAN EIGHT CENTS.

Second—His DAILY loss from disputes over accounts is at least EIGHT CENTS.

Third—The saving of a half hour of book-keeping labor is fully worth EIGHT CENTS.

Fourth.—A system which will accurately CHECK HIS COST, prevent inaccuracy and dishonesty among his employes and advertises his business every time a sale is made, will benefit him to the extent of at least EIGHT CENTS DAILY.

The S. F. Autographic Register Co., Room 45 and 47 Phelan Building, San Francisco.

D. W. LEWIS,

Kings River Nurseries.

I grow and handle a full line of Deciduous and Citrus Fruit and Shade Trees, Ornamental Evergreens, Roses, Palms and Grapevines of the Most Valuable Market, Shipping and Raisin Varieties, in Large or Small Lots.

My experience in this section as a Nurseryman, Fruit Grower and Shipper has taught me what, when and how to plant. All new varieties are tested in my own orchard, and I recommend only those proving valuable.

SPECIAL ATTENTION TO THE SOUTHERN TERRITORY TRADE.

Goods Closely Boxed and Packed in Moss, Insuring Good Condition on Arrival at Destination.

Correspondence Solicited. Write for Prices and Estimates.

Special Low Rates on Grapevines in Car Load Lots.

20,000 California Fan Palms, Just the Thing for Avenues, Bed Rock Prices.

SAN JOSE.

The co seat of Santa Clara Co, dates as a settlement from 1777, as a town since 1847, and later in 1850 was incorporated as a city. Located some 80 feet above the sea level, in the Santa Clara valley, between two small rivers, the Guadalupe and the Coyotte, about 1 1-2 miles apart, affording excellent facilities for perfect drainage, with a climate and surroundings unsurpassed; its fine drives, bordered with luxurious foliage, elegant residences, and the numerous medicinal springs in the vicinity, all combine to make it one of the most attractive and popular resorts in the state. It is reached by the S. P. C. and the S. P. R. R., all operated by the latter company, and is 150 miles south of Sacramento, and by the shortest route, the S. P. C. line, is 146 southeast of San Francisco. The present population of the city is estimated at 23,000. It has churches of all denominations, and as an educational centre holds a high rank, being the seat of the University of the Pacific, Notre Dame Convent, the State Normal School, the Garden City Business College, and the public schools. The Free Library contains 10,000 and the San Jose Law Library 2,000 volumes. Among its manufacturing interests may be mentioned 4 planing mills, a box factory, 5 foundries, 7 windmill manufactories, a flour mill, 2 feed mills, a pottery, a woolen mill, a furniture factory, 2 tanneries, several large canneries, driers and wineries. The buildings of note are the University, Notre Dame Convent, Catholic Church, Court House, State Normal School, City Hall, Bank of San Jose, and the San Jose Safe Deposit Building. The California Theatre has seating accommodation for 1,200. The city is well lighted by gas and electricity; for the latter a tower 200 feet high and several masts of lofty height have been erected. It has excellent water works, a paid fire department, street railways, and an electric motor road connecting with Santa Clara. Five banks do business here, and 9 newspapers are published, 4 of which are issued daily. During the year 1889 more than $1,000,000 worth of buildings were erected in the city. Tel., W. U. and P. P. Exp., W., F. & Co. Mail, daily. Dr. T. Kelley, P. M.

THE EQUITABLE LIFE ASSURANCE SOCIETY OF THE U. S.

120 BROADWAY, NEW YORK.

T. P. SPIERS, Manager of San Jose branch. H. R. AVERY, Cashier.

AGENTS: W. O. Avery, H. L. Cowles, J. W. Sneed, D. M. Bollman.

The Largest, Most Popular and Strongest Life Assurance Company in the world.

Total outstanding assurance, - - - - - - - $850,962,245.00
New business written in 1892, - - - - - - - 200,490,316.00
Total undivided surplus, 4 per cent, standard, - - 31,189,815.49

The Society has about double the surplus of any other life assurance company, a larger income, a larger number and amount of policies in force, and transacts a larger annual new business than any other life assurance company in the world, while the expenses of management have for a number of years been less than those of any of the other prominent companies.

The C., St. P., M. & O. Ry. IS THE SHORT LINE TO ST. PAUL, MINNEAPOLIS, DULUTH & CHICAGO.

SAN LUCITA.

San Luis Obispo Co. (See Morro.)

SAN LUIS OBISPO.

The judicial seat of San Luis Obispo Co., situated in the western portion of the co. on the P. C. Ry., 10 miles north of Port Harford, its ocean shipping port, with which it is connected by the above line of railroad. It is 200 miles south of San Francisco, and 196 north of Los Angeles. This city was first settled in 1772. It was organized as a town in 1859, and incorporated as a city March 20, 1876. There are 4 banks, 5 churches, the Catholic, Episcopal, Presbyterian, Methodist and Methodist South, 2 public school buildings, a private school and a Catholic academy. Has a street railway, court house, city hall, agricultural pavilion, county hospital, water, gas and electric light works and a well equipped fire department, and 2 theatre halls, seating capacity 500 each. The press is represented by 1 daily paper, the Tribune (Republican), and 3 weeklies, the Tribune (Republican), Messenger (Democratic), and the Reasoner (Independent). The shipments consist of grain, fruits, vegetables, stock and dairy products. The surrounding country is devoted to agricultural pursuits, stock raising, dairying and mining asphaltum and bituminous rock. The dairy products of this section exceed that of any county in the state. Telephone connections. Exp., W., F. & Co. Tel., W. U. Pop., 3,500. Mail, daily. Wm. S. Canon, P. M.

SANTA CLARA.

Founded in 1777, in Santa Clara Co. It is reached by the S. P. R. R. and the S. P. C. Ry., being 3 miles from San Jose, the co. seat, and 44 from San Francisco. It is connected with the former by electric railway. Religion is represented by Catholic, Methodist, Baptist, Presbyterian, Episcopal, Advent and Christian churches. The educational institutions include public schools, the Santa Clara College, the Academy of Our Lady of Angels and St. Joseph's School. A tannery, a fruit drying and packing establishment, a wind mill factory, a distillery and several wineries are in operation. There is also a bank and a semi-weekly newspaper, the Journal. Tel., W. U. Exp., W., F. & Co. Telephone service. Pop., 3,000. Mail, daily.

SANTA CRUZ.

The co. seat of the co. of the same name, is a port of entry on Monterey bay, and is also reached by the S. P. Co. and the South Pacific Coast line (narrow gauge) of the same road, and by the Pacific Coast Steamship Co. It is 245 miles from Sacramento, and 70 by water or 80 by rail south of San Francisco. The first settlement was made in 1791; it was incorporated as a town in 1866; as a city in 1876. Churches of the city are as follows: Congregational, Episcopal, 2 Methodist, Presbyterian, 2 Baptist, Adventist, Christian, Universalist and Roman Catholic. It has 7 public schools, 6 banks, and 3 newspapers are published, the Sentinel (Republican) and the Surf (Democratic), both daily and weekly, and the Record (Republican), evening daily. Among the industries may be mentioned 2 planing mills, 3 tanneries, a brewery, a winery, a powder mill, and a lime kiln. There is a public library of 9,000 volumes, and the city has gas and water works, a fire department, electric light plant, electric and horse car street railway, and telephone connection. Within 7 miles of the city are the famous quarries of bituminous rock. There are in the vicinity, also, gold mines and petroleum. Among the principal buildings may be mentioned the county court house, the high school, county jail, Helm block, Hotaling block and Y. M. C. A. Hall. Tel., W. U. and P. P. Exp., W., F. & Co. Pop., 8,000. Mail, daily. E. C. Williams, P. M.

SANTA ROSA.

An incorporated city, and the co. seat of Sonoma Co., is situated on the S. F. & N. P. R. R., and also on the Santa Rosa branch of the S. P. R. R., 52 miles by the former road, and 75 by the latter, north of San Francisco. Religion is represented by Baptist, Episcopal, Methodist, Presbyterian, Christian and Adventist church organizations. It has 3 public schools and several colleges and seminaries, a free public library, 4 banks, an opera house, a public hall, gas, electric light and water works, 2 street railways, a well-equipped fire department, several extensive wineries and fruit canneries, and also other manufacturing establishments of various kinds. Basalt quarries are worked in the hills around the town, and there are several large nurseries in the vicinity, R. W. Bell and Mrs. M. E. Knick being the leading ones. The press is represented by the Democrat and the Republican, both issuing a daily and weekly edition. The shipments comprise green, canned and dried fruits, wine, brandy, hops, wool, flour, lumber,

STOCKTON.

The co. seat of San Joaquin Co., was settled in 1847, and was incorporated as a city in 1851, within a year from which it was burnt down, but soon rebuilt on a more substantial basis. It is on the line of the Southern Pacific and the Stockton and Copperopolis Railroads, at the head of tide-water navigation. The principal shipments are wheat, flour, hides, wool, chicory, fruit and agricultural implements. Among the manufacturing establishments are 3 flour mills, a paper mill, woolen mill, 3 foundries, a brewery, 3 large carriage and wagon shops and 4 manufactories of combined harvesters, 2 of which also make street cars in large numbers. There are 2 large planing mills, sash, door and blind factory, and 2 furniture factories. The State Insane Asylum is located here. There are 13 schools, including a kindergarten and a high school. There are 4 banks, including 1 national, and a free library containing 15,000 volumes. The principal buildings are the State Insane Asylum, new court house, built of granite at a cost of $305,000; the Yosemite block, costing $60,000; Yosemite Opera House, county jail, cost $60,000; Agricultural Pavilion, Masonic Temple, Odd Fellows' Hall, Library Building, Avon Theatre, and Methodist church. Two daily papers are published, the Independent (Republican) and the Mail (Democratic). The city is lighted by gas and electricity. Eight gas wells have been developed; the steam at the water works is made entirely by natural gas, and 1 large mill is operated entirely by it; and has a complete electric street railway system. The distance from San Francisco by rail is 92 miles, and by boat 100 miles. Tel., W. U. and P. P. Exp., W., F. & Co. Pop., 20,000. Joseph W. Caves, P. M.

WILLOW.

Generally known by the name of Willows, is the co. seat of Glenn Co., and is a thriving town. Its improvements are of a substantial character, and a general air of permanency pervades the place. It is 30 miles north of Colusa, and 150 north of San Francisco. It has an electric light and water works, a foundry and machine shops, a public hall, and Catholic, Baptist, Methodist, Christian and Presbyterian churches, all with large memberships. Its school system comprises a grammar school and a high school. A bank with a capital of $300,000. There are 2 newspapers, the Daily and Weekly Journal and the Weekly Review. One of the most recent improvements is the Crawford House, which has just been completed and furnished, at a cost of $40,000. Daily stage to Jacinto, fare $1. Telephone connection. Exp., W., F. & Co. Tel., W. U. and P. P. Pop., 2,500. Mail, daily. Mrs. Lizzie M. Calder, P. M.

WOODLAND.

The co. seat of Yolo Co., is located on the S. P. R. R., 16 miles northwest of Sacramento and 86 miles northeast of San Francisco. It was settled in 1869. Woodland is the centre of a rich agricultural region, producing large quantities of fruit. The city has churches of the following denominations: Christian, Episcopal, Baptist, Lutheran, Methodist, Adventist, Congregational, Catholic and United Brethren. Besides excellently graded public schools, including a county high school, there are several private educational institutions, among which are Hesperian College, St. Mary's Academy and the Woodland Business College. Among the buildings of note are the court house, city hall, Farmers and Merchants Bank, Hesperian College, St. Mary's of the Holy Rosary Academy, and the Bryn's hotel; the last named is a fine three-story brick structure, well furnished with all modern conveniences. The town has four banks, a public library, three newspapers, the Mail and the Democrat, both daily and weekly, and the Home Alliance, weekly; street railroad, gas and electric light works. Telephone service. Exp., W., F. & Co. Tel., W. U. and P. P. Pop., 5,000. Mail, daily. Francis M Rahm, P. M.

A. Auchie Cunningham, F. C. S., Etc.

MENZO SPRING,

Manufacturer of

Dr. Bly's Artificial Limbs,

BEST IMPROVED.

Commissioned by the United States to furnish Limbs on Government Orders.

OFFICE AND ADDRESS:

9 Geary St., San Francisco, Cal.

Dr. Bly's Celebrated Artificial Limbs.

ROBERT REED,

954 BROADWAY,

OAKLAND, CAL.

SHOULD you wish to purchase an Artificial Limb it would be well for you to call and examine my Improvements before purchasing elsewhere. I manufacture DR. BLY'S Celebrated Artificial Arms and Legs, with REED'S Improved Ankle Joint, with Lateral or Side Motion at the ankle like the natural one.

Should you be so fortunate as not to wish such an article, please preserve this card for some unfortunate.

N. B.—I manufacture and repair all kinds of Artificial Limbs and Orthopedical Appliances twenty-five per cent cheaper than any other manufacturer on the Pacific Coast.

Send For Illustrated Catalogue and Price List.

SENT FREE ON APPLICATION.
